

TIILING

CASE STUDY

Project:
**Aldi Store
Brighton**

Tiling Contractor:
Colne Valley Tiling

Products used:
EU Primer

**Professional SLC1500
Commercial**

**Professional Flexible Fast
Set (C2FS1)**

**Professional Stain Resistant
Wide Joint Grout**

When Aldi took over a Sainsbury's store in Brighton, Colne Valley Tiling were tasked with the retiling in line with the new store fit out. It was important that the store was returned to service as soon as possible so it was decided to leave the existing tiling in place, level the floor and then install the new tiling.

After cleaning, the floor was primed with Larprime EU epoxy primer and finished with a sand scatter to give a good key for the application of the rapid drying Larsen Professional SLC1500 Commercial levelling screed.

This provided a strong level base for the installation of the 300x300mm porcelain tiles using Larsen Professional Flexible Fast Set (C2FS1) and grouted with Larsen Professional Stain Resistant Wide Joint Grout.
