

# STREET SCAPE

## CASE STUDY

Project:  
**Craig Croft Village Centre,  
Solihull, West Midland**

Main Contractor:  
**Dawnus**

Area:  
**2000m<sup>2</sup>**

Products used:  
**FBC – BS 7533 compliant  
fine bedding concrete,  
supplied in two bulk silos.  
PS – BS 7533 compliant  
priming slurry.  
FJM – BS 7533 compliant  
flowable jointing mortar.**

The Chelmund's Cross Village Centre formally known as Craig Croft is the largest proposed Village Centre within North Solihull.

The works carried out consisted of new public realm areas using natural stone, a new access road (including pedestrian crossings), highway works, car parking, new high quality street furniture, landscaping & street lighting.

Larsen's BS 7533 compliant paving mortar system was chosen to bed, prime & grout all types of specified paving.

Independently tested by a UKAS accredited laboratory for compressive, flexural, adhesive and shrinkage performance characteristics Larsen's paving mortar system installs confidence and provides long term durability.
