

FLOORING

CASE STUDY

Project:
**London Underground
Station**

Engineer:
Jenkins & Potter

Flooring Contractor:
Lowry Ltd.

Products used:
Dry4 Screed
SBR Bond (Larcem 25)

Larsen Dry4 Screed, a shrinkage-controlled, rapid-drying screed was specified by Jenkins & Potter Engineers for the renovation of flooring and watering channels in a London Underground station.

The screed was installed bonded using Larcem 25 bonding slurry.

The screed's special properties allowed the contractor to install the product over the weekend and to reopen on Monday, minimising disruption to passengers.
