

# Concentrated Algicide

Larsen Concentrated Algicide is a clear liquid chemical algaecide and fungicide. It is a surface biocide for amateur\* and professional use against fungi, moulds and algae on internal and external surfaces such as render, masonry, concrete, tiles, tarmac and plaster. Larsen Concentrated Algicide is suitable for application by brush or spray.

- Kills mould, fungi & algae
- Stops lichen
- Inhibits new growth
- Helps prevent moss
- Ideal for use as a Fungicidal Wall Solution
- Prevents immediate re-infection
- Economical to use
- User friendly
- Ideal for use on render, concrete, masonry, bitmac, paths and patios
- Safe for plants and animals

## DIRECTIONS:

### Preparation

Brush or hose clean any heavy build up of material prior to application.

It is advisable to treat a trial area first prior to application.

For best results apply onto a dry substrate.

### Application

Dilute 1 part Algicide with 15.5 parts water.

Apply liberally by brush, spray or watering can.

Product does not require washing off.

If the surface is to be washed again after use, leave product on the surface for a minimum of 1 hour before washing.

Areas become typically become clean after 24-48 hours.

Areas of heavy contamination may require a second treatment.

### Restrictions

Always take care when spraying and wear suitable protective equipment and take adequate precautions with regard to any overspray.

Always test an inconspicuous area to ensure compatibility with substrate.

Only the 1litre pack size is approved for amateur use.

**HANDLING PRECAUTION** Larsen products are generally safe provided they are used as instructed and that certain precautions normally taken when handling chemicals are observed eg, do not allow any material to come into contact with foodstuffs. Avoid contact with skin. Do not swallow. Always read the safety information on the pack and the Safety Data Sheet before use.

**IMPORTANT NOTE** The information given in this data sheet is based on both current development work and many years' field experience. Whilst every effort is made to ensure that the information is reliable we cannot accept responsibility for any work carried out with our materials where we have no control over methods of application, site conditions etc.

### Statutory Information

FOR USE ONLY BY PROFESSIONAL OPERATORS  
The (COSHH) Control of Substances Hazardous to Health Regulations 2002 may apply to the use of this product at work.

Engineering control of operator exposure must be used where reasonably practicable in addition to the following items of personal protective equipment.

Wear suitable protective clothing, suitable gloves and eye/face protection.

AVOID EXCESS CONTAMINATION OF COVERALLS AND LAUNDER REGULARLY.

Do not breathe spray. Otherwise wear respiratory protective equipment. However, engineering controls may replace personal protective equipment if a COSHH assessment shows they provide an equal or higher standard of protection.

DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES.

This material and its container must be disposed of in a safe way.

When using do not eat or smoke.

Take off immediately all contaminated clothing.

AFTER CONTACT WITH SKIN, WASH IMMEDIATELY with plenty of water and seek medical advice immediately.

Wear suitable eye/face protection (when diluting). Avoid contact with eyes. In case of contact with eyes, rinse

immediately with plenty of water and seek medical advice.

UNPROTECTED PERSONS AND ANIMALS SHOULD BE KEPT AWAY FROM TREATED AREAS FOR 48 HOURS

OR UNTIL THE SURFACES ARE DRY. COVER ALL

WATER STORAGE TANKS before application. DO NOT

USE NEAR DRAINS, PREVENT ANY SURFACE RUN-OFF

FROM ENTERING DRAINS. REMOVE OR COVER ALL

FISH TANKS AND BOWLS before application. This product

contains substances which are known to be hazardous to

the environment. Do not contaminate ground, waterbodies or watercourses with chemicals or used container.

**HANDLING PRECAUTION** Larsen products are generally safe provided they are used as instructed and that certain precautions normally taken when handling chemicals are observed eg, do not allow any material to come into contact with foodstuffs. Avoid contact with skin. Do not swallow. Always read the safety information on the pack and the Safety Data Sheet before use.
