

# BRICK & PATIO CLEANER

Larsen Brick & Patio Cleaner is a hydrochloric acid based liquid for dissolving cement and mortar stains from brickwork, blockwork, etc. It is ideal for removing unsightly mortar droppings and spillages. Brick & Patio cleaner is also useful for the removal of minor efflorescence and lime bloom staining from concrete and masonry.

**READY TO USE**  
**REMOVES CEMENT STAINS**  
**CLEANS EFFLORESCENCE**

**TECHNICAL INFORMATION:**

<b>PRODUCT INFORMATION</b>	
<b>APPEARANCE:</b>	Pale Straw/Yellow Liquid
<b>ODOUR:</b>	Strong acid odour
<b>pH:</b>	~1.0
<b>DENSITY:</b>	1 – 1.1kg/L
<b>SOLUBILITY:</b>	Soluble in water (Note: always add acid to water never water to acid)
<b>COVERAGE:</b>	5-10m <sup>2</sup> /L (depending on substrate)

## **DIRECTIONS FOR USE:**

### **HEALTH & SAFETY**

**IRRITANT** - Contains Hydrochloric Acid. Consult container safety label and/or MSDS before use.

### **PREPARATION**

For external use only.

Brush or scrub off any large build up of material prior to application. For best results, apply onto a damp (not wet) substrate.

### **DIRECTIONS**

Brick & Patio Cleaner is supplied ready for use. Brush directly onto stained area. When bubbling action has stopped, rinse off with clean water. Repeat until stain is removed. It may be useful to scrub the area between applications of Brick & Patio Cleaner to improve cleaning efficiency.

### **RESTRICTIONS**

Always treat a trial area as Brick & Patio Cleaner can, under circumstances, cause surface discoloration. Ensure the area treated is well washed with clean water after treatment, to help prevent surface discoloration. Protect metal surfaces from contact with Brick & Patio Cleaner and its vapour. Brick & Patio cleaner is only suitable for the removal of cement or lime based stains. Care must be taken when used to clean stains off cement based materials as Brick & Patio cleaner may also affect the surface of the substrate. Always carry out trial areas first to ensure suitability for use.

### **CLEANING**

Clean tools, equipment, etc. immediately with clean water.

### **STORAGE**

Brick & Patio Cleaner should be stored in tightly closed containers in a dry place.

### **SHELF LIFE**

12 months in unopened manufacturer's containers.

### **PACKAGING**

1L, 2.5L, 5L and 25L containers.
