

CONCENTRATED ALGICIDE

Larsen Concentrated Algicide is a surface biocide for amateur and professional use. It is ideal for use against fungi, moulds, green growth and algae on internal and external surfaces such as masonry, concrete, tiles, paving, tarmac and plaster. For application by brush or spray. No scrubbing or power-washing required. Apply and allow to dry and after a few days algae, fungi, green growth and mould will begin to die off.

**KILLS & CLEANS

FOR MOULD & MILDEW, GREEN AND RED ALGAE
15X STRONGER**

TECHNICAL INFORMATION**PRODUCT INFORMATION**

SIZE:	1L, 2.5L and 5L
COLOUR:	Pale straw liquid
HAZARD INFORMATION:	Concentrate is harmful if swallowed, corrosive and toxic to aquatic life. Read SDS before use.
STORAGE CONDITIONS:	Store in sealed containers in dry conditions, protected from extremes of temperature
SHELF LIFE:	Minimum 24 months stored in good conditions

APPLICATION INFORMATION

ACTIVE INGREDIENTS	Contains: Benzalkonium Chloride 10.0% w/v (100g/litre) 2-Phenylphenol 2.5% w/v (25g/litre)
DILUTION	Dilute 1L with 15.5L clean water
COVERAGE	16.5L diluted solution will treat up to 165 sq m
APPROVAL	This product is approved under the control of pesticides regulations for use as directed H.S.E. number: 6606 P.C.S. number: 94225

DIRECTIONS FOR USE**PREPARATION**

Brush or hose clean any heavy build-up of material, loose soil, weeds, twigs etc prior to application.

It is advisable to treat a trial area first prior to application.

For best results, apply onto a dry substrate. Do not apply if rain is expected before product will dry (i.e. within 8 hours).

APPLICATION

Dilute 1 part Algicide with up to 15.5 parts water.

Apply liberally by brush, spray or watering can.

Product does not require washing off.

If the surface is to be washed again after use, leave product on the surface for a minimum of 1 hour before washing.

Mould, mildew, algae and green growth will typically begin to disappear after 24-48 hours.

Areas of heavy contamination may require a second treatment or further cleaning to remove

RESTRICTIONS

Always take care when spraying and wear suitable protective equipment and take adequate precautions with regard to any overspray. Whilst this product is designed to be safe to use on most 'water safe' surfaces always test an inconspicuous area to ensure compatibility with substrate. Only the 1litre pack size is approved for amateur use. For use only as specified as a surface biocide. On heavily soiled areas 2 applications may be required. Do not use near drains, prevent any surface run-off from entering drains. Remove or cover all fish tanks and bowls before application. This product contains substances which are known to be hazardous to the environment. Do not contaminate ground, waterbodies or watercourses with chemicals or used container.
