TECHNICAL DATA SHEET

PRODUCT INFORMATION

FORM	Liquid
STANDARD COLOURS:	Hazy / White
Fragrance:	Fresh
HAZARD INFORMATION:	IRRITANT – Consult Safety Datasheet before use. Contains: 5-15% Acrylate Polymers, <5% Anionic Surfactants Also contains: Perfume, Dye
CLEANING	Clean tools, equipment, etc. using warm water.
PACKAGING	1L Plastic Containers
STORAGE INSTRUCTIONS	Store in sealed containers in dry conditions, protected from extremes of temperature
SHELF LIFE	12 months in unopened manufacturer's packaging

APPLICATION INFORMATION

APPLICATION TEMPERATURE:	+3°C to +30°C
COVERAGE:	Up to 40 m ² /L depending on dilution

DIRECTIONS FOR USE

NOTE

Read Safety Datasheet before use. While Clean & Shine is suitable for almost all water washable surfaces it is recommended to always test on an inconspicuous area first to ensure suitability for use, particularly on tiles with a highly polished surface.

SUITABILITY

Suitable for use on porcelain, vitrified, glazed ceramic, certain types of natural stone, quarry tiles, vinyl, timber flooring.

DIRECTIONS

Remove any loose or dry material from the floor by sweeping or vacuum. (If floor is heavily soiled, clean first with standard floor detergent.) Dilute 1 to 2 cups (100 to 200ml) Clean & Shine in 10L water.

Apply dilute solution to the floor by mop. Pick up 'dirty' water completely by mop wringing out the mop regularly. Allow the floor to dry naturally. Do not rinse the floor after cleaning. Shine will improve with each application.

It is recommended to strip the floor annually using a suitable floor polish remover and reapply a suitable floor polish.
