BUILDING  
PRODUCTS

### **New Product Development**

New product development is our mantra. The requirements of our markets and customers are of paramount importance to Larsen and so we push ourselves constantly to improve our product portfolio. All of the R&D work is focused on delivering quality products and value for money whilst keeping a watchful eye on decreasing environmental impact. At our state-of-the-art facilities our chemists rigorously research, formulate and test the next generation of products and constantly strive for continuous improvement.

### **Customer Service**

At Larsen we believe in speaking with our customers directly. Our highly trained sales support team will deal with your order or query with the same level of professionalism. They will ensure you are provided with accurate and pertinent information, that your call is handled competently and to your complete satisfaction.

### **Logistics**

From our manufacturing plant we offer a 48 hour delivery service to anywhere in the British Isles. We can arrange site deliveries to reduce handling and improve efficiency.

### **Technical and Site Support**

With our first class technical back-up and support team we can assist our customers with specification, recommendations and offer a product solution.

### **Manufacturing Excellence**

With all products manufactured under an ISO9001 quality system and with our plant certified to ISO14001, it is clear that we take both our product quality and environmental responsibilities seriously.

# STOCK AVAILABLE NATIONWIDE

From adhesives through to grouts, from preparation to finish, you can rely on Larsen with confidence. Look out for your approved local Larsen stockist.

Larsen has built up an enviable distribution network covering Ireland and the UK with both major builders merchants and specialist independent stockists.

A word cloud of construction and maintenance terms, shaped like a right-angled triangle. The words are in various sizes and orientations, with larger words like 'SEALANT', 'ADHESIVE', '1550FLEX', 'GROUT', 'SCREED', 'SBR BOND', and 'COLOURFAST' being more prominent. The background is dark blue.

# STRONG IN-STORE PRESENCE

BUILDING  
PRODUCTS

A strong shelf presence and visual impact is achieved with our distinctive packaging and we provide a range of point-of-sale options to punch home our key messages throughout our product ranges. We are proactive in helping you to stimulate sales and have invested heavily in our presentation to enhance your environment for your customers.

# PROTIM 265 WOOD PRESERVATIVE

A solvent-based ready-to-use wood preservative for the treatment of new and existing timber. For application on all exterior timber, which is not in direct contact with the ground or surface water, e.g. joists, end grains, fences, sheds etc.

- Solvent based
- Prevents rot and woodworm
- Long lasting protection
- 1L per 3-8 m<sup>2</sup>

AND ALL EXTERIOR WOOD**

**READY-TO-USE / SOLVENT BASED  
NO PRE-TREATMENT REQUIRED  
EFFECTIVE AGAINST FUNGI & INSECTS  
PROTECTS AGAINST UV LIGHT DAMAGE**

## UNIVERSAL WOOD PRESERVATIVE

A ready-to-use triple action wood preservative which can be used to eradicate wood boring insects and their larvae, stop reinfestation and prevent damage to timber from blue stain, wet rot and dry rot.

- Low odour
- Triple action
- Kills woodworm
- Prevents dry and wet rot
- 1L per 3.3-10 m<sup>2</sup>

CODE	COLOUR	PACK	BOX
M104LO05	Clear	5L	4
M104LO25	Clear	25L	1

## EXTERIOR WOOD STAIN & PRESERVER

A solvent-based, ready-to-use wood preservative for the treatment of new and existing timber. For application on all exterior timber, which is not in direct contact with the ground or surface water, e.g. joists, end grains, fences, sheds etc.

- Solvent based
- Prevents rot and woodworm
- Long lasting protection
- 1L per 3-8 m<sup>2</sup>

## LOW ODOUR WOODWORM KILLER

A ready-to-use treatment for the eradication of all types and life stages of wood boring insects and their larvae, including the common furniture beetle and the house longhorn beetle. It penetrates deeply into the wood to actively kill and protect against reinfestation.

- Low odour
- Kills wood destroying insects
- Prevents reinfestation
- Deep penetrating
- 1L per 3.3-5 m<sup>2</sup>

CODE	COLOUR	PACK	BOX
M104WK01	Clear	1L	6
M104WK02	Clear	5L	4
M104WK05	Clear	25L	1

## CONSTRUCTION TIMBER PRESERVER

A ready-to-use wood preservative for the prevention of damage to timber from blue stain, wet rot, dry rot and wood boring insects and their larvae

- Quick drying
- Prevents rot and woodworm
- Long lasting protection
- 1L per 5 m<sup>2</sup>

FENCESHIELD

A water-based wood stain, ideal for domestic use. It is suitable for use on all rough sawn timber fencing, sheds, gates, trellises, etc. and will help to protect all exterior timber from the harshness of weather conditions.

- One coat
- Colours and protects
- Lasts up to 2 years
- 1L per 8-12 m<sup>2</sup>

CODE	COLOUR	PACK	BOX

M110GC06	Golden Chestnut	6L	2
M110MO06	Medium Oak	6L	2
M110RC06	Red Cedar	6L	2

CREOCOAT

A dark brown oil based wood stain for protecting all rough and smooth sawn external timber from weather damage.

- Enhances water repellency
- Restricts weather damage
- Creosote substitute
- 1L per 5 m<sup>2</sup>

CODE	COLOUR	PACK	BOX
M126D04	Dark	4L	4
M126D20	Dark	20L	1
M126D95	Dark	200L	1

LARDEC

An oil-based, long chain alkyd, woodstain and primer. It is ideal for use on all joinery components; for example, window frames, doors, garden sheds and garden furniture, poultry houses, etc

- Oil based stain
- Ready to use
- Easy to apply
- 1L per 5-10 m<sup>2</sup>

## TILING ADHESIVES RANGE DESIGNED FOR THE TRADE

Our tiling products balance technical merit and user friendliness without compromising either.

Larsen Trade tiling range is a specially formulated compact range that offers multifunctional use from a compact range.

All manufactured in accordance with the strict requirements of BS EN12004.

# WE'VE GOT IT COVERED

Request our 70+ page Specification Guide for tiling.

## SHOWERPROOF

A high grab, non-slip, mould resistant, ready-mixed, thin-bed adhesive. It is designed for fixing interior ceramic wall tiles and mosaics in domestic showers, kitchens and bathrooms.

- Easy to spread
- Excellent grab
- Mould resistant
- BS EN 12004 D1T

CODE	COLOUR	PACK	PALLET
M340 03	White	3.75kg	1 (single)
M340 07	White	7.5kg	1 (single)
M340 15	White	10L	48

## FAST SET

A specially formulated, fast setting, cement based adhesive for beds of 3-12mm, interior and exterior, floor and wall applications. Fast Set is suitable for fixing ceramic and porcelain tiles to a variety of common stable substrates. For use on heated screeds or overboarded timber, Fast Set should be mixed with Larsen Flexibiliser.

- Rapid set
- Polymer modified
- Grout after 3 hours
- BS EN 12004 TYPE C1F

CODE	COLOUR	PACK	PALLET
M354G05	Grey	5kg	5 (box)
M354G10	Grey	10kg	100
M470G20	Grey	20kg	64

## STANDARD SET FLEX

A specially formulated non-slip, flexible, standard setting, cement based adhesive. It is suitable for beds of 3-12mm, interior, exterior, floor and wall applications. Standard Set Flex is suitable for fixing most types of tiles including porcelain natural stone and large format tiles.

- Polymer modified
- Up to 5 hour pot life
- Non-slip
- BS EN 12004 TYPE C2TE

CODE	COLOUR	PACK	PALLET
M472W20	White	20kg	64

## FAST SET FLEX

A flexible, non-slip, fast setting, cement based adhesive. It is suitable for beds of 3-12mm, interior, exterior, floor and wall applications. Fast Set Flex is suitable for fixing ceramic, porcelain, large format, natural stone and mosaic tiles to a variety of substrates including heated screeds and overboarded timber.

- Flexible
- Polymer modified
- Grout after 3 hours
- BS EN 12004 TYPE C2FT

CODE	COLOUR	PACK	PALLET
M471G20	Grey	20kg	64
M471W20	White	20kg	64

WALL GROUT

A water and mould resistant, cement-based, narrow joint, tile grout. It is manufactured using high quality fine fillers to improve ease of finishing. Wall Grout is suitable for use with glazed and unglazed tiles and has excellent adhesion to all tile types.

- Up to 3mm joint
- Water resistant
- Resists fungal & mould growth
- BS EN 13888 TYPE CG1

CODE	COLOUR	PACK	BOX
M344W03	White	3kg	8
M344W10	White	10kg	1
M344I03	Ivory	3kg	8
M344I10	Ivory	10kg	1

FLOOR GROUT

A high quality, sanded, cement-based, wide joint, tile grout. Floor Grout is suitable for use with most common floor tiles internally or externally.

- 3 - 12mm joint
- Water resistant
- Internal & external
- BS EN 13888 TYPE CG1

CODE	COLOUR	PACK	BOX
M343G03	Grey	3kg	8
M343G10	Grey	10kg	1

FLEXIBLE FLOOR GROUT

A specially formulated, polymer modified, cement-based wide joint grout. It is suitable for internal and external applications, and for use in areas of limited movement. It is suitable for use with glazed and unglazed tiles and has excellent adhesion to all types of tile.

- 3 - 20mm joint
- Water resistant
- Flexible
- BS EN 13888 TYPE CG2W

## TILE MAINTENANCE RANGE

### EXTRA STRENGTH REMOVER

A strong acidic cleaner for the removal of stubborn cement and grout residues. It is ideal for removing residues caught in deep textured tiles.

- Strong acidic cleaner
- Removes cement stains
- Ideal for stubborn residues

CODE	PACK	BOX
M395ER01	1L	6

### CLEAN & SHINE

A mild clean and shine product for the routine cleaning of tiled floors, offering superior cleaning action with a fresh scent, while improving surface colour. It is ideal for maintaining polished floors.

- Renovating floor cleaner
- Offers superior cleaning action
- Enhances surface colour
- Helps maintain polished look

CODE	PACK	BOX
M395SC01	1L	6

### STONE & GROUT PROTECTOR

An advanced, water based surface protector based on fluoropolymers. Unlike other products, the appearance of the impregnated surface remains almost totally unchanged. Stone & Grout protector protects treated surfaces against water and oil based staining.

- Advanced stain resistant impregnating sealer
- Invisible protection
- Suitable for almost all porous surfaces and all types of natural stone

CODE	PACK	BOX
M395MP01	1L	6

### IMPEGNATING SEALER

An advanced, solvent based surface protector and colour enhancer. It is ideal for providing a water repellent, stain resistant seal to slate and porous tiles, while improving and intensifying colour.

- Advanced impregnator
- Water repellent seal
- Enhances colour of treated surface

CODE	PACK	BOX
M395IS01	1L	6
M395IS05	5L	1

WATERPROOF TANKING KIT

A versatile, multicomponent system ideal for use in waterproofing applications and to provide secondary protection in tiling installations. The system comprises a water based liquid applied flexible membrane, a roll of self-adhesive flexible joint sealing tape and a primer. The kit is designed to provide the complete solution wet rooms, shower areas and bathrooms.

- Quick and easy to use
- Fast installation
- Suitable for wet rooms & power showers
- Covers 5m<sup>2</sup>

CODE	COLOUR	PACK	BOX
M348 04	Blue	-	

FLEXIBLE SHOWER SEAL TAPE

Flexible Shower Seal Tape is a self-adhesive, high performance waterproof sealing tape that can be applied directly to the wall-facing edge of shower trays, baths or worktops. Used prior to installation, Flexible Shower Seal Tape provides a secure watertight seal.

- Quick and easy to use
- Fast installation
- Suitable for showers, bathrooms & kitchens
- 3.6m roll per pack

CODE	COLOUR	PACK	BOX
M348 350	Yellow	3.6m	12
M348R25	Yellow	25m	1

WATERPROOF ANTI-CRACK MEMBRANE

A low profile membrane providing waterproofing and decoupling for all floor tiling. It is an innovative 3-ply membrane designed to accommodate and decouple lateral movement and stresses in substrates and protect from moisture migration. Ideal for use with timber floors; wet rooms; natural stone; large format tiles; heated floors; cracked floors etc

- Easy to install
- 2 in 1 waterproofing and uncoupling
- Minimal height build-up (<1mm)
- Ideal with underfloor heating

CODE	COLOUR	PACK	BOX
1J100 20	Blue	20m	1

SELF-ADHESIVE TANKING TAPE

A roll of self-adhesive flexible joint sealing tape for use in domestic and commercial tanking and waterproofing applications. Provides flexible sealing of corner joints; joints between construction boards and for joints in Waterproof Anti-Crack Membrane applications.

- Easy to apply
- Self-adhesive
- Flexible

CODE	COLOUR	PACK	BOX
J11605	Grey	5m	1
J11620	Grey	20m	1

TANKING MEMBRANE

A ready for use solvent-free sealing compound for professional tanking of areas under tiling installations in wet rooms, showers and other areas at risk from water. Designed for use in all interior floor or wall applications to protect substrates and surfaces with frequent or prolonged exposure to water e.g. power showers, wet rooms and changing areas in schools and sport facilities.

- Waterproof
- Quick drying - Touch dry in 1 hour
- Low odour

CODE	COLOUR	PACK	BOX
M349W05	Blue	5kg	1
M349W10	Blue	10kg	1

# FLOORING

LARTEX FLO

SELF LEVELLING COMPOUND

SLC1550 FLEX

SLC2500

PRIMADRY

SLC3015 FAST

# OUR LEVEL BEST

Being moisture tolerant and capable of levelling over light adhesive residues, our latex screed, Lartex Flo is in high demand by contractors.

- up to 10mm depth
- foot traffic in 2-3 hrs
- floor covering in 12-24 hrs
- protein-free
- low odour
- suitable for underfloor heating

**LARSEN**

## LARTEX FLO

A specially formulated 2-part latex designed for the professional flooring contractor. It can be used to prepare most rigid surfaces such as sand / cement screed, concrete, correctly prepared wooden floors, over underfloor and under tile heating, flooring grade asphalt and floors with minor adhesive residue contamination. prior to the installation of floor coverings such as vinyl, carpet and ceramic floor tiles.

- Can be laid up to 10mm
- Smooth finish
- Protein-free
- Foot traffic in 2-3 hours
- 1 pack per 4.5m<sup>2</sup> @3mm

CODE	COLOUR	PACK	PALLET
M339 20	Grey	20kg	48
M339L04	White	4.5L	48

## SELF LEVELLING COMPOUND

A 1-part general purpose cementitious smoothing underlayment suitable for levelling most common subfloors such as sand/cement screed and concrete.

- Up to 6mm
- Protein-free
- Smooth finish
- 30 min open time
- 20kg per 4m<sup>2</sup> @3mm

CODE	COLOUR	PACK	PALLET
M311 11	Grey	11kg	100
M311 20	Grey	20kg	64

## SLC1550 FLEX

A single pack, fast-drying, fibre-reinforced, cement-based underlayment. For use in fast track domestic and commercial situations, such as, where levelling of up to 50mm is required or for use over underfloor heating and on more difficult substrates, e.g. timber.

- 3-50mm in one application
- Fast drying
- Protein-free
- Fibre-reinforced
- Foot traffic in 2-4 hours
- 1 pack per 1m<sup>2</sup> @10mm

CODE	COLOUR	PACK	PALLET
M322 20	Grey	20kg	64

## SLC2500

A single pack, fast drying, hand or pump applied cement based levelling topping designed to eliminate surface irregularities and smooth internal and external concrete surfaces exposed to industrial traffic. Suitable for application between 5 and 15mm to provide an exterior wearing surface.

- 5-15mm in one application
- Fast drying
- Hard wearing finish
- Slip resistant finish
- External use
- 2m<sup>2</sup> per 25kg @ 7mm

CODE	COLOUR	PACK	PALLET
M324 25	Grey	25kg	48

## PRIMADRY

A premium semi-dry screed cement incorporating Larsen Prima Screed additive. Used in place of cement, this advanced screed binder offers acceleration, water reduction and shrinkage compensation, to create a screed with high early and ultimate strengths, ease of finishing, rapid drying and reduced shrinkage. Due to the excellent early strengths and rapid drying properties, Prima screeds are ideal for fast track construction and refurbishment projects.

- High strength: resists construction traffic
- Rapid drying: earlier covering
- Improved workability: easy to compact
- Easy: just add sand
- 12 bags per m<sup>3</sup> of screed

CODE	COLOUR	PACK	PALLET
M325 20	Grey	22.5kg	48

## SLC3015 FAST

SLC3015 FAST is a single pack, ultra-rapid setting, hand or pump applied cement based levelling compound. Using advanced binder technology, it is ideal when a fast track solution is required.

- Walk on from 30 min
- Cover from 45 min
- Fibre reinforced
- Up to 15mm
- 1pack per 4.5m<sup>2</sup> @3mm

CODE	COLOUR	PACK	PALLET
M324 20	Grey	20kg	64

with  
**fiberflex™**  
microfibre  
technology

# SLC 1550 **FLEX**

SLC1550 FLEX from Larsen is a fast drying underlayment that is reinforced by millions of tiny fibres which bring both strength and flexibility to your floor. Larsen have been using fibre-reinforced technology in flooring for over 10 years, flexible working at its best.

- 3-50mm depth
- 2hr set time
- polymer modified
- high flexural strength
- overboarded timber floors
- suitable for underfloor heating

# PRIME & BOND

PVA BOND

SBR BOND

PLASTER GRIP

ACRYLIC PRIMER

NP KEYCOAT

PRIMER GRIP 360

F1X

XTRA GRIP CONSTRUCTION ADHESIVE

WATER RESISTANT WOOD GLUE

LARFIX E

PVA BOND

Universal general purpose adhesive, primer and bonding aid. Prime porous and difficult substrates prior to rendering, plastering, and screeding. Bonds most building materials provided one surface is porous. Seals porous surfaces and helps prevent dusting on concrete. Can also be used with cementitious mixes to make patch repairs.

- General purpose adhesive
- Additive for internal mortars and renders.
- Primer for plastering
- Woodworking adhesive

CODE	COLOUR	PACK	BOX
M252 00	White	0.5L	12
M252 01	White	1L	12
M252 02	White	2.5L	4
M252 05	White	5L	4
M252 25	White	25L	1

SBR BOND

A synthetic rubber polymer emulsion used to make polymer mortars, screeds and renders. SBR Bond can be mixed with cement as a bonding grout for screeds and renders. The improvements allow the production of high strength screeds, thin section screeds, patching/repair mortars and waterproof mortars.

- Improves flexural strength
- Improves tensile strength
- Improves abrasion resistance
- Improves chemical resistance
- Reduces water permeability
- Internal or external

CODE	COLOUR	PACK	BOX
Y100 05	White	5L	4
Y100 25	White	25L	1

PLASTER GRIP

A high performance, internal, plaster bonding agent. Designed to provide an improved mechanical key to all backgrounds including existing plaster, plasterboard, timber, concrete, painted surfaces and glazed tiles. Plaster Grip will also even out and reduce suction on mixed substrates giving more time to create the perfect skim finish.

- One coat
- Ideal for skimming
- Gritty finish for excellent key
- Equalises and reduces suction
- Up to 50m<sup>2</sup> per tub

CODE	COLOUR	PACK	BOX
M907 10	Red	10kg	1

# PRIMER GRIP<sup>360</sup>

- ONE COAT
- SUPERIOR BOND
- GRITTY FINISH
- NON-ABSORBENT SUBSTRATES

**THE ULTIMATE MECHANICAL KEY**

## ACRYLIC PRIMER

A ready-to-use primer for use on porous and difficult substrates prior to tiling or screeding, or to seal gypsum plasters or screeds prior to the addition of cement based adhesives. It can be used neat when sealing substrates or diluted with an equal quantity of water for general priming.

- Water-based polymer emulsion
- Ready-to-use primer
- Improved adhesion
- Coloured to indicate application
- 1L per 7-10m<sup>2</sup> (neat)

CODE	COLOUR	PACK	BOX
M901 01	Pink	1L	12
M901 05	Pink	5L	4

## NP KEYCOAT

A high performance, water based, modified polymer primer for use on smooth and non-porous, demanding substrates prior to tiling or levelling. It is ideal for priming one coat DPMs, tiled floors and metal substrates.

- Ready-to-use
- For tiling and levelling
- High performance modified polymer
- Non-porous substrates
- Universal primer
- 1L per 5-10m<sup>2</sup>

CODE	COLOUR	PACK	BOX
M905 05	White	5L	4

## PRIMER GRIP 360

A hybrid primer for the ultimate mechanical key. Formulated with advanced polymers and special fine aggregate, it is designed to provide an improved mechanical key to all common absorbent and non-absorbent backgrounds. Rapid drying and can be tiled over or levelled in as little as 15-20 minutes.

- Gritty surface for superior bond
- Ideal for tiling and levelling
- Rapid drying
- Internal and external
- 1kg per 5-10m<sup>2</sup>

CODE	COLOUR	PACK	BOX
M906 05	Green	5kg	1

## F1X

An advanced adhesive and sealant based on MS-polymers to provide a single-part, long lasting and elastic product. F1X ensures excellent grip, bonding and sealing for virtually every material involved in the construction industry, and beyond, making it the ideal all-in-one sealant and fixing product for professional tradesmen. F1X can be used on both dry and wet surfaces, including under water. It cures odourless through atmospheric moisture to form a durable, flexible, solvent free waterproof, weatherproof, UV, bacterial and fungal resistant seal.

- MS polymer
- Replaces construction adhesive
- Replaces silicone
- Replaces sanitary sealants
- Replaces mirror adhesives
- Excellent adhesion to many surfaces

CODE	COLOUR	PACK	BOX
D209C01	Clear	290ml	12
D209W01	White	290ml	12
D209G01	Grey	290ml	12
D209B01	Black	290ml	12

## XTRA GRIP CONSTRUCTION ADHESIVE

A ready-to-use high strength, gap-filling adhesive which bonds to most common surfaces, replacing the need for nails or screws. Ideal for fitting skirting, architrave, coving etc, it dries white and can be sanded and overpainted.

- Trade grade
- Solvent free
- Excellent adhesion
- High strength
- 12m x 6mm bead / tube

CODE	COLOUR	PACK	BOX
S303 50	White	350ml	25

**WATER RESISTANT  
WOOD GLUE**

One pack, ready-to-use, general purpose water resistant wood glue. Offering a fast rate of strength development, it is ideal for use in kitchens, window frames, wooden flooring and other joints subject to short-term water contact.

- Water resistant
- Woodworking adhesive
- Wood and laminate flooring
- EN 204 D3/3 and D3/4

CODE	COLOUR	PACK	BOX

M251 500	White	0.5L	12
M251 01	White	1L	12
M251 05	White	5L	4

**LARFIX E**

A solvent-free, two-pack, non-sagging, synthetic adhesive, based on selected epoxy resins and fillers. It is ideal for the bonding of numerous building materials and for the fixing of (instead of doweling or screwing of) concrete, rocks, glass and metals on horizontal, inclined and vertical surfaces (including overhead).

- Waterproof
- Impact resistant
- Thixotropic, non-sagging
- Heavy-duty quality
- Low shrinkage
- 1kg pack = 0.6L

# PERFORMANCE ENHANCING ADMIXTURES

Admixtures are used to improve the properties of both fresh and hardened concrete, mortar and screed.

## MORTAR PLASTICISER

A plasticising/air-entraining admixture for site-mixed bricklaying and plastering mortars. It is manufactured from a blend of specially selected synthetic surfactants. Improves the workability of mortar for masonry, brickwork and sand/cement rendering without the need for lime.

- BS EN 934
- Replaces lime
- Increases frost protection
- Reduces shrinkage and crazing
- Chloride-free
- 125ml per 25kg cement

CODE	COLOUR	PACK	BOX
L103 05	Brown	5L	4
L103 25	Brown	25L	1
L103 95	Brown	200L	1

## EXTRA STRENGTH MORTAR PLASTICISER

A Vinisol® resin-based plasticising / air-entraining admixture for site-mixed bricklaying and plastering mortars. It is manufactured from Vinisol® resin and a blend of specially selected synthetic surfactants. Improves the workability of mortar for masonry, brickwork and sand /cement rendering.

- BS EN 934
- Replaces lime
- Increases frost protection
- Reduces shrinkage and crazing
- Chloride-free
- 85ml per 25kg cement

CODE	COLOUR	PACK	BOX
M103 05	Brown	5L	4
M103 25	Brown	25L	1
M103 95	Brown	200L	1

## WINTER PLAS

A chloride-free, liquid admixture which combines acceleration with plasticising / air-entrainment. A single part product which, when added to mortar, allows work to continue even at sub-zero temperatures.

- BS EN 934
- Increases frost resistance during setting
- Faster finishing times - even in cold weather
- Higher strength at an earlier stage
- Chloride-free
- 0.5-2L per 25kg cement

CODE	COLOUR	PACK	BOX
M101 05	Blue	5L	4
M101 25	Blue	25L	1

## POWDER MORTAR PLASTICISER

A concentrated plasticising/air-entraining admixture for site-mixed bricklaying and plastering mortars. Manufactured from a unique blend of surfactants, which ensures consistent performance of mortars. Powder Mortar Plasticiser improves the workability of mortar for masonry, brickwork and sand / cement rendering.

- BS EN 934
- Easily handled powder
- Replaces lime
- Increases frost protection
- Reduces shrinkage and crazing
- Chloride-free
- 25g per 25kg cement

CODE	COLOUR	PACK	BOX
M129 25	White	25kg	1

## CONCENTRATED MORTAR PLASTICISER

A high strength, low dosage plasticising admixture for bricklaying and plastering mortars. Supplied in a special, easy-to-use, dosing pack, it is up to 25 times stronger than conventional products. Concentrated Mortar Plasticiser improves the workability of mortar for masonry, brickwork and sand / cement rendering.

- BS EN 934
- Up to 25X stronger
- Replaces lime
- Reduces water demand
- Increases frost protection
- 1L plasticises up to 100x25kg cement
- 10-25ml per 25kg cement

CODE	COLOUR	PACK	BOX
M106 01	Brown	1L	12

## CEMENT COLOURS

Concentrated powder pigments for use with any cementitious mix. Suitable for use in coloured mortars, renders, concrete mixes, grouts and pointing. Larsen Cement Colours are supplied in easy-to-use resealable packs.

- Easy-to-use / Strong colours
- For mortar and concrete
- 500g per 25kg cement

CODE	COLOUR	PACK	BOX
M353Y01	Yellow	1kg	6
M353B00	Brown	0.5kg	6
M353B01	Brown	1kg	6
M353R00	Red	0.5kg	6
M353R01	Red	1kg	6
M353E00	Black	0.5kg	6
M353E01	Black	1kg	6
M353E12	Black	12.5kg	1

## RAPID HARDENER & FROSTPROOF

A set and hardening accelerator for concrete and mortar. It is a highly concentrated calcium chloride based liquid admixture formulated to accelerate the setting time of cement based mixes in cold weather and increase the rate of hardening of concrete and other cement mixes.

- Accelerates setting times
- Increases early strengths
- Ideal in cold weather conditions
- Helps prevent frost damage in newly placed materials
- Chloride-based
- BS EN 934-2 table 6 & 7
- Up to 2.5L per 25kg cement

CODE	COLOUR	PACK	BOX
M102 05	Clear	5L	4
M102 25	Clear	25L	1
M102 95	Clear	200L	1

## PINK WATERPROOFER

A standard setting, liquid integral waterproofer for mortar, render and concrete. It inhibits the passage of liquid water through the capillary and pore network in cementitious materials, but does not form a vapour barrier thus allowing the structure to breathe. It is non-retarding, chloride-free and equally compatible with all cements. It is not suitable for use in areas where there is hydrostatic pressure.

- Integral waterproofer
- Ideal for use in external renders
- Vapour permeable
- Allows structure to 'breathe'
- 250ml per 25kg cement

CODE	COLOUR	PACK	BOX
M310 05	Pink	5L	4
M310 25	Pink	25L	1

## PRUFPLAST

A combined mortar plasticiser and liquid waterproofer for building mortars and renders. It inhibits the passage of liquid water through the capillary and pore network in cementitious materials, but does not form a vapour barrier thus allowing the structure to breathe. Prufplast is non-retarding, chloride-free and equally compatible with all cements. Use in render base coats also reduces the suction to allow easier application of following render coats.

- Combined waterproofer and plasticiser
- Ideal for use in external renders
- Vapour permeable
- Allows structure to 'breathe'
- 250ml per 25kg cement

CODE	COLOUR	PACK	BOX
M105 05	Green	5L	4
M105 25	Green	25L	1

**POWDER WATERPROOFER**

A white powder admixture used to increase the water repellency of render, mortar and concrete. By increasing the water repellency but maintaining the vapour permeability of a mix, there is a lower water absorption, lower risk of efflorescence and staining and a higher durability. Its use in render base coats also reduces the suction to allow easier application of following render coats.

- Permeability and absorption reduced
- Vapour permeable
- Allows structure to ‘breathe’
- Helps prevent efflorescence
- Easy to use
- 0.5kg per 25kg cement

CODE	COLOUR	PACK	BOX
M317 01	White	1kg	10

**INTEGRAL WATERPROOFER**

A ‘pore-blocking’, permeability-reducing admixture. It inhibits the passage of liquid water through the capillary and pore network in cementitious materials, but does not form a vapour barrier thus allowing the structure to ‘breathe’. It can be used to waterproof screeds, renders and concrete, which when treated will resist hydrostatic pressure. It is also suitable for use in render systems used to tank basements or to line water-retaining structures.

- Pore-blocking waterproof
- Waterproof render system
- Vapour permeable: structure can ‘breathe’
- 0.75L per 25kg cement

CODE	COLOUR	PACK	BOX
M400 05	Yellow	5L	4
M400 25	Yellow	25L	1

**SBR BOND**

A synthetic rubber polymer emulsion used to make polymer mortars, screeds and renders. SBR Bond can be mixed with cement as a bonding grout for screeds and renders. The improvements allow the production of high strength screeds, thin section screeds, patching/repair mortars and waterproof mortars.

- Improves flexural strength
- Improves tensile strength
- Improves abrasion resistance
- Improves chemical resistance
- Reduces water permeability
- Internal or external

CODE	COLOUR	PACK	BOX
Y100 05	White	5L	4
Y100 25	White	25L	1

**CRANE LIFT MULTI-TRIP  
MORTAR  
TUBS**

# EASY CLEAN & SEAL

The ultimate range of cleaners and sealers for all outdoor areas. High performance products with excellent shelf impact.

**EASY  
TO USE**

**A RANGE OF  
BRICK & PATIO  
CLEANERS**

## BRICK & PATIO CLEANER

A strong hydrochloric acid based cleaner which removes cement, mortar and efflorescence stains from brickwork, paving and tiles. It is also effective at cleaning away dirt, grime and green growth.

- Ready to use
- Removes, cement and efflorescence
- Powerful acid based cleaner
- Cleans patios, paving and brickwork
- 5-10m<sup>2</sup>/L

CODE	COLOUR	PACK	BOX
M100 01	Clear	1L	12
M100 02	Clear	2.5L	4
M100 05	Clear	5L	4

## DECKING & PAVING CLEANER

A highly effective cleaner for cleaning patios, decking, paths and driveways. Highly concentrated it is effective at cleaning green and grime from most external hard surfaces.

- No bleach
- No acid
- Powerful cleaner
- Cleans patios, paving and decking
- Dilute up to 1:20

CODE	COLOUR	PACK	BOX
M112 01	Clear	1L	12
M112 02	Clear	2.5L	4
M112 05	Clear	5L	4

## CONCENTRATED ALGICIDE

Kills green growth, algae and fungi without scrubbing. A highly concentrated surface biocide for killing green and red algae, black moulds, fungal growth on internal and external surfaces.

- Ideal for driveways, renders, paths, brickwork and masonry
- Kills all green and red algae, mildew, mould and fungi
- Brush or spray – no scrubbing
- 1L dilutes to over 16L

CODE	COLOUR	PACK	BOX
M113 01	Clear	1L	12
M113 02	Clear	2.5L	4
M113 05	Clear	5L	4

## WATER REPEL

A ready-to-use, solvent-based, masonry water repellent. It is ideal for use on standard building materials like brickwork, concrete and wood, and will also help to prevent water damage to stonework, leather, canvas, etc. Water Repel penetrates readily into most porous surfaces to form a clear, hydrophobic layer in the substrate's pore structure, thus preventing the ingress of moisture, while remaining breathable.

- Masonry water repellent
- Ideal for brick, wood and concrete
- Prevents penetrating damp
- Dries clear
- 3-8m<sup>2</sup>/L per coat

CODE	COLOUR	PACK	BOX
M115 02	Clear	2.5L	4
M115 05	Clear	5L	4
M115 25	Clear	25L	1

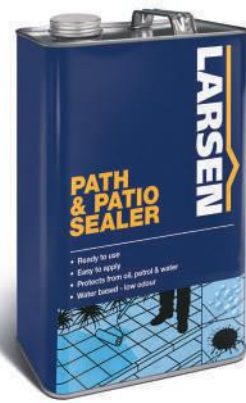

## ACRYLIC CONCRETE SEALER

A solvent-based, hardwearing acrylic sealer and surface coating for concrete, Shake-Top, concrete paving products and other cementitious floors. It is designed to penetrate the capillary structure of the substrate, and by binding loose particles together, forms a tough, resilient enamel. This leaves the surface dust-free, hardwearing and resistant to oils, alkalis and other chemicals.

- Colourless
- Improves wear resistance
- Eliminates surface dusting
- Reduces dirt penetration
- Improves oil and chemical resistance
- Easier floor maintenance
- 5-10m<sup>2</sup>/L per coat

CODE	COLOUR	PACK	BOX
Y605 05	Clear	5L	4
Y605 25	Clear	25L	1
Y605 95	Clear	200L	1

## PATH & PATIO SEALER

A tough water based acrylic sealer. It produces a hard, clear seal with excellent weathering and water resistance and offers excellent protection from dirt, oil and petrol. Path & Patio Sealer is ideal for use as a sealer for concrete floors and yards, driveways and paths and all concrete and stone paving.

- Colourless
- Ready to use
- Easy to apply
- Protects from oil, petrol & water
- Reduces moss & fungal growth
- Water-based – low odour
- 6-12m<sup>2</sup>/L per coat

CODE	COLOUR	PACK	BOX
Y606 01	White (dries clear)	1L	12
Y606 05	White (dries clear)	5L	4

## ONE COAT PROTECTION AGAINST RAIN/FROST

### CONCRETE FLOOR PAINT

A single pack, semi-gloss, oil-based floor paint designed to give an economical but durable finish. It is suitable for use in areas subject to light to medium traffic including workshops, domestic garages, general storage areas, corridors, etc, internally and externally.

- Coloured single pack system
- Economical maintenance product
- Ready to use - easy to apply
- Long shelf life when stored correctly
- 10-12m<sup>2</sup>/L per coat

CODE	COLOUR	PACK	BOX
Y249G0505	Grey	5L	1
Y249R5605	Red	5L	1

### WATER DISPERSIBLE EPOXY PAINT

Specifically designed for low cost durable sealing of internal concrete, walls and floors, workshops, dairies and other medium duty areas. It is odour and taint-free and non-flammable. With the inclusion of a suitable aggregate, Epoxy Paint can produce slip and skid-resistant surfaces.

- Coloured two pack system
- Satin finish - medium duty coating
- Easy to use
- Low odour
- 4-6m<sup>2</sup>/kg per coat

CODE	COLOUR	PACK	BOX
M203W05	White	5kg	1
M203SG05	Sea Grey	5kg	1
M203SGD05	Dark Sea Grey	5kg	1
M203R05	Red Oxide	5kg	1

### LINE MARKING PAINT

A high performance surface coating specially formulated to renovate and renew old tarmac paths and driveways. It provides a tough, durable, low sheen finish which protects from weathering, oil and petrol spills and unsightly plant and weed growth

- Quick drying
- Tough seal
- Long lasting finish
- 4-6m<sup>2</sup>/L per coat

CODE	COLOUR	PACK	BOX
A200A00	Blue	750ml	6
A200R00	Red	750ml	6
A200W00	White	750ml	6
A200Y00	Yellow	750ml	6
A200G00	Green	750ml	6

### BLACK BITUMEN PAINT

A high quality, fast drying, solvent-based bitumen paint giving a black coating when dry. An effective waterproof, weatherproof and corrosion resistant protective coating, it can be applied to iron, steel, lead, zinc, aluminium, concrete, stone, brick, etc. Examples of use: to corrugated iron; fire escapes; ladders; cold water storage tanks (not suitable for use in contact with potable water); downpipes; gutters; gates; concrete; stone; brickwork; etc.

- Easy to apply / quick drying
- Apply by brush or airless spray
- Resistant to alkalis/acids (low concentrations)
- 3-5m<sup>2</sup>/L

CODE	COLOUR	PACK	BOX
C400 02	Black	2.5L	4
C400 05	Black	5L	4
C400 25	Black	25L	1

### DRIVEWAY RESTORER & SEALER

A high performance surface coating specially formulated to renovate and renew old tarmac paths and driveways. It provides a tough, durable, low sheen finish which protects from weathering, oil and petrol spills and unsightly plant and weed growth

- Quick drying
- Tough seal
- Long lasting finish
- 4-6m<sup>2</sup>/L per coat

CODE	COLOUR	PACK	BOX
M118 05	Black	5L	4
M118 25	Black	25L	1

## LARSEAL SUPER

A higher solids, solvent-based, hardwearing acrylic sealer and surface coating for concrete, concrete paving products and pattern imprinted concrete. It forms a tough, resilient enamel which leaves the surface dust-free, hardwearing and resistant to oils, alkalis and other chemicals.

- Colourless
- Improves wear resistance
- Eliminates surface dusting
- Reduces dirt penetration
- Improves oil and chemical resistance
- Easier floor maintenance
- High sheen
- 5-10m<sup>2</sup>/L per coat

CODE	COLOUR	PACK	BOX
Y600 25	Clear	25L	1

## EPOXY IMPREGNATING SEALER

A two-component, low-viscosity solvent containing epoxy impregnation material. It may be used as a sealer and surface hardener for cementitious materials, to eliminate dusting and give enhanced resistance to oils, water, abrasion and chemical attack (eg, in factories, garages, car parks, warehouses, plant rooms, etc.) or as an impregnating primer for certain other coatings. Impregnation greatly improves the abrasion resistance of concrete making it ideal for use on high traffic industrial floors.

- Industrial finish / eliminates surface dusting
- Excellent abrasion resistance
- Improves oil and chemical resistance
- Easier floor maintenance
- 5-10m<sup>2</sup>/L per coat

CODE	COLOUR	PACK	BOX
Y601 10	Clear	10L (5L A + 5L B)	1

## SEAL PLUS 3IN1

A water based acrylic hybrid dispersion paving sealer, sand stabiliser and protector suitable for most paving. It can be used commercially and domestically including town centres, car parks, patios and driveways. It provides accelerated joint stabilisation which helps to prevent erosion of sand filled joints through vacuum sweeping, pressure washing and heavy rainfall.

- Sand stabilisation
- Sealer
- Protector
- 2-6m<sup>2</sup>/L depending on application

CODE	COLOUR	PACK	BOX
M328 05	White (dries clear)	5L	4
M328 25	White (dries clear)	25L	1

## STORM REPEL

A creamy silane/siloxane based impregnating water repellent. Its unique thixotropic nature allows sufficient active material to be applied in one coat, by brush roller or airless spray, even overhead. It has been designed to penetrate deeply into silicate based mineral substrates like brick, mortar and roofing tiles to give maximum reduction in water absorption and protection from water, pollutants and freeze/thaw damage. By keeping masonry dry, the thermal performance of the wall is improved.

- One coat application
- Greatly reduces rain penetration
- Protects against freeze / thaw damage
- Excellent penetration / vapour permeable
- Improves energy performance
- 30m<sup>2</sup> per 5kg pack

CODE	COLOUR	PACK	BOX
M547C05	White (dries clear)	5kg	1

## STAIN REPEL

A solvent based mixture of silane, siloxane and fluoropolymer impregnating water and oil repellent. It is oleophobic (oil repellent) so both water and oil based staining is much more easily removed. The treated surface remains breathable. Ideal for treatment of facades and pavements composed of cement based render or blocks, natural stone, concrete or similar. Also suitable for treating window sills, work tops etc. manufactured from natural or reconstituted stone or concrete. Internal / external use.

- Reduces staining / easy clean surface
- Oil and water repellent / impregnating seal
- No change in appearance/surface texture
- 5-10m<sup>2</sup>/L

CODE	COLOUR	PACK	BOX
M545C01	Clear	5L	4
M545C05	Clear	25L	1

## DUSTPROOFER

A silicate-based surface hardening liquid for concrete floors, floor screeds and renders. It reacts chemically with cement-based substrates to form a microcrystalline seal in the surface pores of the concrete or screed. This produces a hard dust-free finish, ideal for polishing operations. The seal is a permanent, integral part of the surface.

- Colourless / water based
- Improves wear resistance
- Eliminates surface dusting
- Easier floor maintenance
- Longer floor life
- 4-6m<sup>2</sup>/L per coat

CODE	COLOUR	PACK	BOX
M309 05	Clear	5L	4
M309 25	Clear	25L	1
M309 95	Clear	200L	1

# ASK THE EXPERTS

## BUILDING MORTAR

A factory controlled, prescribed general purpose 6:1 masonry mortar for external use in elements subject to structural requirements. It is a blend of specially graded, kiln dried sands, Portland cement and air-entraining agents. It is suitable for building, bedding and pointing brick, block and stone. Supplied in bulk tanker to our Site Silo Mixing Station, ideal for no-waste mixing of mortar on site or for ex-works sale.

- Easy to use
- No mess, no waste
- General purpose
- BS 5268-3 type III mortar
- BS EN 998-2 M4 (prescribed)

CODE	COLOUR	PACK
M612 99	Grey	Bulk ca. 25MT

## PLASTERING MORTAR

A factory produced high quality general purpose render specially designed to EN 998-1 for multi-coat hand application. It is manufactured from a controlled blend of sands, cements, and additives to give a high quality rendering product, which is suitable for use in external rendering and internal plastering. Supplied in bulk tanker to our Site Silo Mixing Station, ideal for no-waste mixing of mortar on site or for ex-works sale.

- Easy to use
- No mess, no waste
- General purpose
- BS EN 998-1 GP

CODE	COLOUR	PACK
M600 99	Grey	Bulk ca. 25MT

## MORTAR TUBS

A high quality polyethylene 330L multi-trip, crane-lift mortar tub. Independently tested 5-1 safety factor. The painted steel two handle lifting frame is secured with stainless steel rivets for added durability. The design allows easy separation of the stacked units.

- SWL 650kg
- Extremely strong and durable
- Fully tested

CODE	COLOUR	PACK	BOX
M100 330	Blue	330L	1

## EASY POST

Easy Post is ready to use directly from the bag - no mixing required. It is a blend of specially selected aggregates, cements and additives to give a very fast-setting, cementitious, post-fixing mortar. Easy Post is suitable for fixing wooden, concrete and metal posts. Fence panels can normally be fixed the same day.

- Sets in 5-10min
- Easy to use
- No mixing
- Suitable for fenceposts, gateposts, garden furniture and lighting

CODE	COLOUR	PACK	PALLET
M601 20	Grey	20kg	64

## RAPID PATCH

A very fast-setting and drying cementitious patching mortar. It is ideal for internal and external repairs to floors, stairs and steps, window sills, concrete, stone and brick.

- 30min set time
- Fast and strong repairs
- Easy to mix and use
- Fills up to 25mm

CODE	COLOUR	PACK	PALLET
Y107 12	Grey	12.5kg	1

## FIRE CEMENT

A ready-to-use fire cement for patching and repairs to fire bricks, fireplaces, solid fuel ovens, boilers etc. It is a ready mixed blend of thermally setting binders and temperature resistant inorganic fillers which cures when exposed to heat to give a seal that is resistant to temperatures up to 1200°C

- Easy to apply
- Patching
- Repairs
- Temperature resistant to 1200°C

CODE	COLOUR	PACK	BOX
D290 310	Charcoal	310ml	12
M352 01	Buff	1kg	12
M352 02	Buff	2kg	6
M352 05	Buff	5kg	1

## 4:1 SAND & CEMENT

A handy pack of specially selected aggregates and cement designed to give a multipurpose mix. Pack contains sand and cement in a 4:1 ratio by weight which is approximately 3:1 by volume. When mixed semi-dry it is ideal for screeding, bedding slabs and paving, haunching kerbs and edgings. Mixed with Larsen Mortar Plasticiser it can be used to produce a traditional building mortar, pointing mortar or render.

- Plastic bag
- Multipurpose
- Easy to use
- 4:1 by weight

CODE	COLOUR	PACK	PALLET
M318 25	Grey	25kg	56

## 40N CONCRETE

A handy pack of specially selected aggregates and cement designed to give a high strength traditional concrete. Ideal for drives, paths, garage floors, structural concrete application, footings and concrete bases.

- Plastic bag
- High strength
- >40N/mm<sup>2</sup>
- Easy to use
- Just add water and mix

CODE	COLOUR	PACK	PALLET
M333 25	Grey	25kg	56

## QUICK CONCRETE

A very rapid setting, fibre reinforced concrete mix. It is a blend of specially selected aggregates and a special fast setting proprietary cement blend designed to give a very rapid setting concrete which can be trafficked in 2-4 hours. Ideal for steps, paths, patios, slabs and shed bases or anywhere requiring a rapid return to service.

- Plastic bag
- Rapid set
- High strength
- 2-3 hr traffic time
- Easy to use
- Just add water

CODE	COLOUR	PACK	PALLET
M335 25	Grey	25kg	56

# POST HASTE

A very fast-setting, cementitious, post-fixing mortar, it is suitable for fixing wooden, concrete and metal posts. Fence panels can normally be fixed the same day.

Suitable for fenceposts, gateposts, garden furniture and lighting.

**LARSEN**

MULTIGROUT

A high strength, single component, cementitious, non-shrink, highly flowable grout. It provides a strong, void-free fill which is durable and of low water absorption. Multigrout is mainly used for grouting under machinery baseplates, stanchion baseplates, transformers handrails and many other similar applications.

- High early and ultimate strength
- >60 N/mm<sup>2</sup> in 28days
- Non-shrink
- High flow
- BS EN 1504-6

CODE	COLOUR	PACK	PALLET
Y103 25	Grey	25kg	48

QUICKSET

A blend of specially selected aggregates, cements and additives to give a very fast setting cementitious patching screed mortar with high early strength. Rapid repairs can be carried out on screeds, pavements and factory floors with minimal obstruction and downtime.

- 20+ N/mm<sup>2</sup> in 2 hours
- Up to 75mm in single layer
- Wearing finish
- Traffic in 2-4 hours
- BS EN 13813 CT-C40-F7

CODE	COLOUR	PACK	PALLET
Y104 25	Grey	25kg	56

SLC2500 EXTERNAL

A single pack, fast drying, hand or pump applied cement based levelling topping designed to eliminate surface irregularities and smooth internal and external concrete surfaces exposed to industrial traffic. It is self-levelling and smoothing, dimensionally stable and fast drying allowing vehicular traffic after 48 hours. Professional SLC2500 is designed for application between 5 and 15mm to provide an exterior wearing surface.

- Self-levelling
- 5-15mm in one application
- Fast drying
- Hard wearing finish
- External use
- BS EN13813 CT-C30-F7-RWA20

CODE	COLOUR	PACK	PALLET
M320 25	Grey	25kg	48

HIGHWAYS MBM60

A single component, HAPAS approved, rapid strength bedding mortar suitable for the installation, raising and reinstatement of ironwork, up to and including installation Group 4 of BSEN124 where rapid trafficking is required. Ideal for bedding kerbs and emergency repairs. Manufactured from a controlled blend of specially selected aggregates, cements and additives it only requires the addition of water to produce a high quality bedding layer which can be trafficked after just 1 hour.

- HAPAS approved
- Stronger, faster even in the cold
- Easy to trowel and finish
- Open to traffic after 1 hour
- >20mpa at 1 hour

CODE	COLOUR	PACK	PALLET
M337 25	Grey	25kg	56

HIGHWAYS MBC10

A HAPAS approved rapid strength concrete for use as backfill of carriageway and reinstatement of ironwork, up to and including installation Group 4 of BSEN124-1: 2015 where rapid trafficking is required. It is ideal for haunching reinstatements, as well as post, sign, fence and barrier erection. It can be mixed to a trowelable consistency for bedding or repair applications. Manufactured from a controlled blend of specially selected cements, additives and aggregates to give exceptionally high early compressive and flexural strengths.

- HAPAS approved / Sets in 15min
- >20mpa within 2 hours
- Waterproof packaging
- Shrinkage compensated

CODE	COLOUR	PACK	PALLET
M375R25	Grey	25kg	56

HIGHWAYS RRC15

A fast set high early strength concrete for reinstatements large or small. Independently tested to EN1504-3 Class R4. Designed for use in car parks, warehouses, ramps and slipways, farm buildings and loading bays, and other concrete hardstandings and concrete roads, it is suitable for patch or full-depth repairs with quick re-opening to traffic.

- EN1504-3 Class R4
- High wear resistance
- Traffic in 3 hours
- Self priming
- Shrinkage compensated
- Slip/skid resistant
- Freeze/thaw resistant
- De-icing salt resistant

CODE	COLOUR	PACK	PALLET
M350 25	Grey	25kg	56

## POTHOLE/ DRIVEWAY REPAIR

An instant and permanent solution for roads, pavements, driveways, car park maintenance companies, school caretakers and homeowners. Instantly trafficable in any weather conditions, hot, wet or freezing. Blended using specially graded high PSV aggregate to achieve an interlock under compaction combined with excellent anti-skid performance. With a polymer modified bitumen binder creating a tougher, flexible, high performance instant repair.

- One visit for an instant and permanent repair
- Open to traffic immediately
- All weather use / no waste
- High skid resistance >60 psv

CODE	COLOUR	PACK	BOX
P120 01	Black	25kg	1
P120 02	Black	25kg	1

## DRIVEWAY RESTORER & SEALER

A high performance surface coating specially formulated to renovate and renew old tarmac paths and driveways. It provides a tough, durable, low sheen finish which protects from weathering, oil and petrol spills and unsightly plant and weed growth.

- Quick drying
- Tough seal
- Long lasting finish
- 4-6m<sup>2</sup>/L per coat

CODE	COLOUR	PACK	BOX
M118 05	Black	5L	4
M118 25	Black	25L	1

## CONCENTRATED ALGICIDE

Kills green growth, algae and fungi without scrubbing. A highly concentrated surface biocide for killing green and red algae, black moulds, fungal growth on internal and external surfaces.

- Ideal for driveways, renders, paths, brickwork and masonry
- Kills all green and red algae, mildew, mould and fungi
- Brush or spray – no scrubbing
- 1L dilutes to over 16L

CODE	COLOUR	PACK	BOX
M113 01	Clear	1L	12
M113 02	Clear	2.5L	4
M113 05	Clear	5L	4

## GUN POINTING MORTAR

A high strength gun applied jointing and pointing mortar. It is designed for gun-injection to provide a clean, quick, durable and colour consistent pointing and jointing solution. GPM is ideal for jointing natural stone paving and pointing sound brickwork, brick slips and natural stone walling.

- Easy to use / min 5mm joint width
- Up to 150mm joint depth
- Low shrinkage / frost resistant
- 28 linear metres of 5x10mm joint

## BLACK BITUMEN PRIMER

A high quality, fast drying, solvent-based bitumen primer for use with Larsen Bituminous Paint and Roofing products. Larsen Bituminous Primer should be applied prior to applying Bituminous Paint to porous substrates, such as concrete, stone, brick, etc.

- Easy to apply
- Apply by brush or airless spray
- Quick drying
- Brush: 3-5 m<sup>2</sup>/L

CODE	COLOUR	PACK	BOX
M127 05	Black	5L	4

## BLACK BITUMEN PAINT

A high quality, fast drying, solvent-based bitumen paint giving a black coating when dry. It provides an effective waterproof, weatherproof and corrosion resistant protective coating. It can be applied to iron, steel, lead, zinc, aluminium, concrete, stone, brick, etc. Examples of use: to corrugated iron; fire escapes; ladders; cold water storage tanks (not suitable for use in contact with potable water); downpipes; gutters; gates; concrete; stone; brickwork; etc.

- Easy to apply / Quick drying
- Apply by brush or airless spray
- Resistant to alkalis/acids (low concentrations)
- Brush: 3-5 m<sup>2</sup>/L

CODE	COLOUR	PACK	BOX
C400 02	Black	2.5L	4
C400 05	Black	5L	4
M128 25	Black	25L	1

## FELT ADHESIVE

A solvent-based, bituminous, heavy duty adhesive. It is ideal for bonding felt to timber, metal, concrete, asphalt, and felt roofs, seals, laps on roofing felt and can also be used as a dressing compound for chippings on flat roofs.

- Easy to apply
- Ready to use
- Heavy duty
- 1.5 - 3.0 m<sup>2</sup>/L

CODE	COLOUR	PACK	BOX
C301 02	Black	2.5L	4
C301 05	Black	5L	4

## ROOFING COMPOUND – BRUSH GRADE

A solvent-based, fibre and mineral filler modified bitumen solution used to provide excellent protection to roof structures. It is ideal for use on flat roofs and gutter repairs and is weatherproof and frost resistant immediately after application.

- Easy to apply
- Ready to use
- Water-resistant
- Unaffected by rain or frost immediately after application
- 1.5 m<sup>2</sup>/L per coat

CODE	COLOUR	PACK	BOX
C304 02	Black	2.5L	4
C304 05	Black	5L	4

## ROOFING COMPOUND – TROWEL GRADE

A solvent-based, thick, heavy-bodied, bituminous compound with excellent non-slump characteristics. It is principally used for repairing cracks in all types of roofs, including asphalt, bitumen felt, asbestos, cement, concrete, etc. Roofing Compound (Trowel Grade) is ideal for use as a glazing bar mastic on roof lights.

- Easy to apply
- Ready to use
- Water-resistant
- Unaffected by rain or frost immediately after application
- 0.7 m<sup>2</sup>/kg @ 1 mm

CODE	COLOUR	PACK	BOX
C305 02	Black	2.5L	4
C305 05	Black	5L	4

## ALUMINIUM REFLECTIVE PAINT

A solvent-based bituminous aluminium paint, which provides a bright silver finish. Aluminium Reflective Paint contains a high quality aluminium flake pigment. It is principally used for the protection against sun and weathering of roofs and walls, particularly where bituminous surfaces, exposed steel and corrugated iron surfaces are encountered.

- Easy to apply
- Quick drying
- Water resistant
- Resistant to salt solutions
- Smooth surfaces: 10 m<sup>2</sup>/L
- Porous or rough: 5-8 m<sup>2</sup>/L

CODE	COLOUR	PACK	BOX
C300 05	Silver	5L	4

# HIGHWAYS

Larsen Building Products have specifically formulated high performance products that embrace the HAPAS scheme delivering stand-alone product approvals offering greater flexibility to the contractor/specifier.

Larsen Building Products BBA/HAPAS approved ironwork bedding mortars and backfill concrete

- Can be used individually or as a system.
- Suitable for all types of carriageway, no restrictions.
- Suitable for all types of ironwork up to and including Group 4 of BS EN 124.

## MULTIPURPOSE SILICONE SEALANT

A one part versatile elastic sealant based on polysiloxanes for sealing building joints and glazing systems. After application Multipurpose Silicone Sealant cures with atmospheric moisture to provide a durable, waterproof elastic seal with excellent adhesion to glass, ceramics, enamel and porcelain. It is ideal for joints in brickwork; around doors and windows; around sanitary-ware; and cap beading.

- Multipurpose
- Acetoxy silicone sealant
- Low-shrink
- $\pm 25\%$  movement capability
- Excellent adhesion
- EN15651-1 F-EXT-INT
- EN15651-2 G
- EN15651-3 S

CODE	COLOUR	PACK	BOX
D203C01	Clear	280ml	25

D203G01	Grey	280ml	25
D203E01	Black	280ml	25
D203B01	Brown	280ml	25

## ALL WEATHER SEALANT

A solvent-based copolymer sealant based on SEBS co-polymer which cures by the evaporation of solvent to form a plastic/elastic rubber seal. It is ideal for a wide range of sealing and weatherproofing applications in building, glazing, roofing and ductwork and for emergency repairs. All Weather Sealant has extremely good adhesion to most surfaces like glass, glazed surfaces, aluminium, lead, zinc and many other metals, painted wood, concrete and brickwork, even under wet conditions.

- Sealing and weatherproofing
- Superior adhesion
- $\pm 25\%$  movement capability
- Emergency repairs in wet weather

D211C310	Clear	310ml	25
D211E310	Black	310ml	25
D211W310	White	310ml	25

## COLOURFAST SILICONE SEALANT

A premium quality, one part low modulus elastic sealant based on silicones for sanitary and construction applications. The fast curing formulation exhibits excellent adhesion to baths, basins, shower enclosures, toilets, glass and glazed tile surrounds. After application Colourfast 360 silicone cures to provide a durable, waterproof elastic seal with low dirt pick-up and mould resistance. Colourfast 360 silicone is available in a range of colours to complement Colourfast 360 Tile Grout.

- Premium grade
- Acetoxy silicone sealant
- Low modulus
- Highly flexible
- Sanitary sealant
- EN15651-1 F-EXT-INT (25LM)
- EN15651-2 G (25LM)
- EN15651-3 S (XS1)

# F1X

## GRIPS BONDS AND SEALS FROM A TO Z

Advanced adhesive and sealant which provides excellent grip and bonding.

It consists of a high quality formulation based on MS Polymers which provide a single-part long lasting and elastic product.

### F1X

F1X ensures excellent grip, bonding and sealing for virtually every material involved in the construction industry, and beyond, making it the ideal all-in-one sealant and fixing product for professional tradesmen. F1X can be used on both dry and wet surfaces, including under water. It cures odourless through atmospheric moisture to form a durable, flexible, solvent-free, waterproof, weatherproof, UV, bacterial / fungal resistant seal.

- Novel adhesive and sealant
- MS polymer
- Replaces numerous other products
- Excellent adhesion to many surfaces
- EN 15651-1: F-EXT-INT-CC (CLASS 20HM)
- EN 15651-3: S (CLASS XS3)

CODE	COLOUR	PACK	BOX
D209C01	Clear	290ml	12
D209W01	White	290ml	12
D209G01	Grey	290ml	12
D209B01	Black	290ml	12

### ROOF & GUTTER SEALANT

A single component bitumen based caulk which cures by the evaporation of solvent to form a durable plastic seal. It is ideal for a wide range of sealing and weatherproofing applications related to roofing, guttering and for emergency repairs to roofs, gutters, chimneys etc. It is ideal for sealing leaks in downpipes, guttering and flashing and can also be used to bed shingles, roof sheets and felts.

- Bitumen based caulk
- Weatherproof sealing
- Sealing and jointing guttering
- Emergency repairs

CODE	COLOUR	PACK	BOX
D212 310	Black	310ml	12

### LEAD SEALANT

A versatile one component sealant specially formulated for use with lead sheeting and flashing. Ideal for use as an alternative to mortaring for sealing building joints and glazing systems. The product is a low modulus, neutral curing and after application the silicone cures with atmospheric moisture to form a durable rubber seal. It is non-corrosive and may be used without primer, to seal assemblies of, lead and many other metals, concrete, brickwork, glass and glazed surfaces. It can also be used to seal joints in gutters, downpipes and flashings.

- High performance
- Neutral cure
- Low-shrink
- Waterproof
- Low modulus
- Ideal for lead flashing
- EN 15651-1: F-EXT-INT-CC (Class 25LM)
- EN 15651-2: G-CC (Class 25LM)
- EN 15651-3: S (Class XS2)

CODE	COLOUR	PACK	BOX
D202G01	Grey	310ml	12

### PAINTER'S CAULK

An easy to use, low odour, acrylic sealant ideal for internal or external use. It is ideal for sealing joints between skirting, architrave, stairs and walls, around windows and window sills and where limited movement occurs prior to decorating. Easy to apply, it gives a smooth finish which doesn't require sanding before painting. Painter's Caulk can be painted with water based (emulsion) paints after as little as 1 hour.

- Flexible filler
- Interior and exterior
- Paint after 1 hr
- Smooth finish
- EN 15651-1: F-EXT-INT (CLASS 7,5P)

CODE	COLOUR	PACK	BOX
D210W310	White	310ml	12
D210W400	White	380ml	12

## XTRAGRIP CONSTRUCTION ADHESIVE

A ready-to-use high strength, gap-filling adhesive which bonds to most common surfaces, replacing the need for nails or screws. Ideal for fitting skirting, architrave, coving etc, it dries white and can be sanded and overpainted.

- Trade grade
- Solvent free
- Excellent adhesion
- High strength
- 12m x 6mm bead /tube

CODE	COLOUR	PACK	BOX
S303 50	White	350ml	25

## EASY FOAM HAND HELD

A ready-to-use, one-component polyurethane foam which cures on contact with humidity. It is used to assemble door frames, fill window joints, window sills, pipes, wall breakthroughs and cavities. The cured foam adheres to practically all usual clean and grease-free construction surfaces

- Foam filler and sealer
- Assemble door frames
- Fill window frame joints
- Seal window sills and pipes
- For wall breakthroughs and cavities
- Tack free in 15min

CODE	COLOUR	PACK	BOX
D213 500	Buff	500ml	12
D213 750	Buff	750ml	12

## SKELETON GUN

A high quality sealant gun, suitable for use with both 310ml and 400ml cartridges

CODE	COLOUR	PACK	BOX
S315 01	n/a	10"	12

## EASY FOAM GUN GRADE

A ready-to-use, one-component polyurethane foam which cures on contact with humidity. It is used to assemble door frames, fill window joints, window sills, pipes, wall breakthroughs and cavities. The cured foam adheres to practically all usual clean and grease-free construction surfaces

- Foam filler and sealer
- Assemble door frames
- Fill window frame joints
- Seal window sills and pipes
- For wall breakthroughs and cavities
- Tack free in 15min

CODE	COLOUR	PACK	BOX
D213G750	Buff	750ml	12

## EASY FOAM CLEANER

A multi-functional cleaner that is designed to digest and remove uncured PU foam. Designed to allow the easy removal of uncured Easy Foam from the majority of gun grade PU foam applicators. The unique designed plastic moulding is an all-in-one component that includes a threaded collar with integral sealing valve and gasket. These features ensure that it is compatible with the majority of PU foam applicators. Also incorporated into the component is a removable red aerosol actuator button, with a clear short plastic tube to allow application of fine accurate jets of cleaner direct to confined areas.

- Removes uncured Easy Foam
- Cleans applicator guns
- Easy to use

CODE	COLOUR	PACK	BOX
D214 500	Clear	500ml	12

## FOAM GUN

A high quality, applicator gun for use with gun grade foam to give the user more control in applying expanding foam precisely in hard to reach places, saving unnecessary wastage.

CODE	COLOUR	PACK	BOX
S316 01	Silver	n/a	1
